### New Prayer Requests

**Shannon Lown-** is begining her next steps in her treatment. She will have injections each day through Tuesday to stabilize the stem cells and then will have extractions beginning Tuesday- those will continue for 3 to 4 days. **Natalee Bryner-** She has had a range of symptoms resulting in shortness of breath. Previously, a minor heart issue was detected. We are praying that her symptoms would be the result of asthma, and not signs of a progressing heart condition. **Pam Crider-** received the results of her scans earlier this week (The scans were done to make sure the cancer had not spread)- those results were very good. There was no cancer anywhere else in her body, which is a huge praise! If you recall, her tests before this confirmed that her chemo was working very well. So, the results of both of these tests have been encouraging.
